Horizon 2020

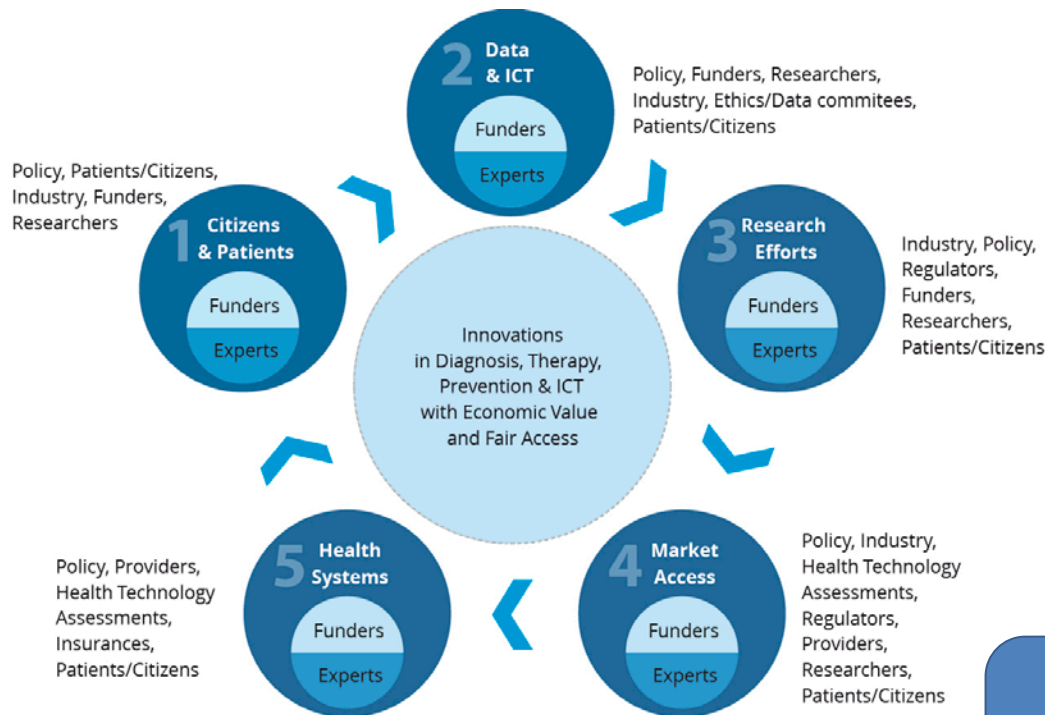

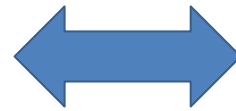

Call: H2020-SC1-2016-2017

(Personalised Medicine)

Topic: SC1-HCO-03-2017

- ✓ foster the implementation of its [Action Plan](#) by funding transnational research projects in the field of Personalised Medicine (PM),
- ✓ Alignment of regional and national PM research strategies and funding activities, promoting excellence, reinforcing the competitiveness of Europe and Canada and enhance the European collaboration as well as with countries beyond the European Union (EU).

Submission & eligibility

PRP evaluation
(only remote)

Submission

PRP
evaluation
Rebuttal &
final
consensus

Each proposal is allocated to

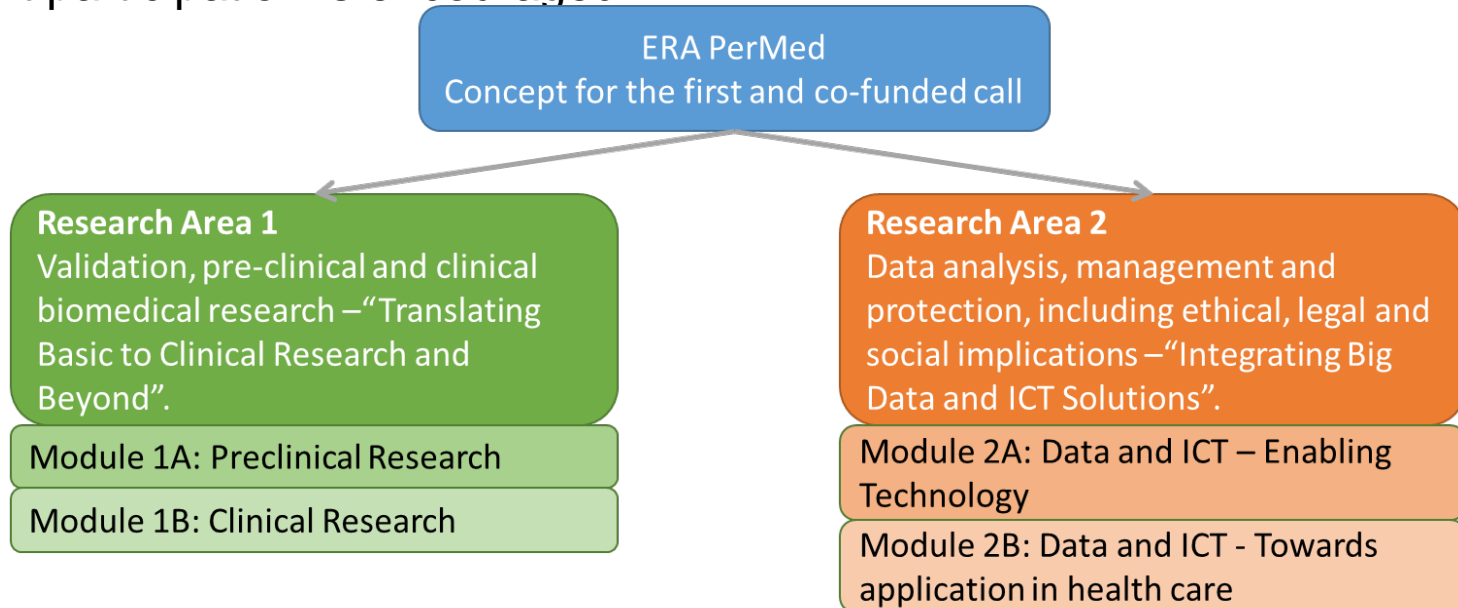

- 3 Peer Reviewers
- 1 member of the PRP as "rapporteur"

ERAPerMed – EU co-funded JTC 2018

Scope of the call

TOPIC: RESEARCH PROJECTS ON PERSONALISED MEDICINE – SMART COMBINATION OF PRE-CLINICAL AND CLINICAL RESEARCH WITH DATA AND ICT SOLUTIONS

- Each consortium submitting a proposal, needs to address at least one module out of each major research defined area
- Each proposal should tackle several slots of the value chain (from basic, translational to applied and innovation)
- Patient participation is encouraged

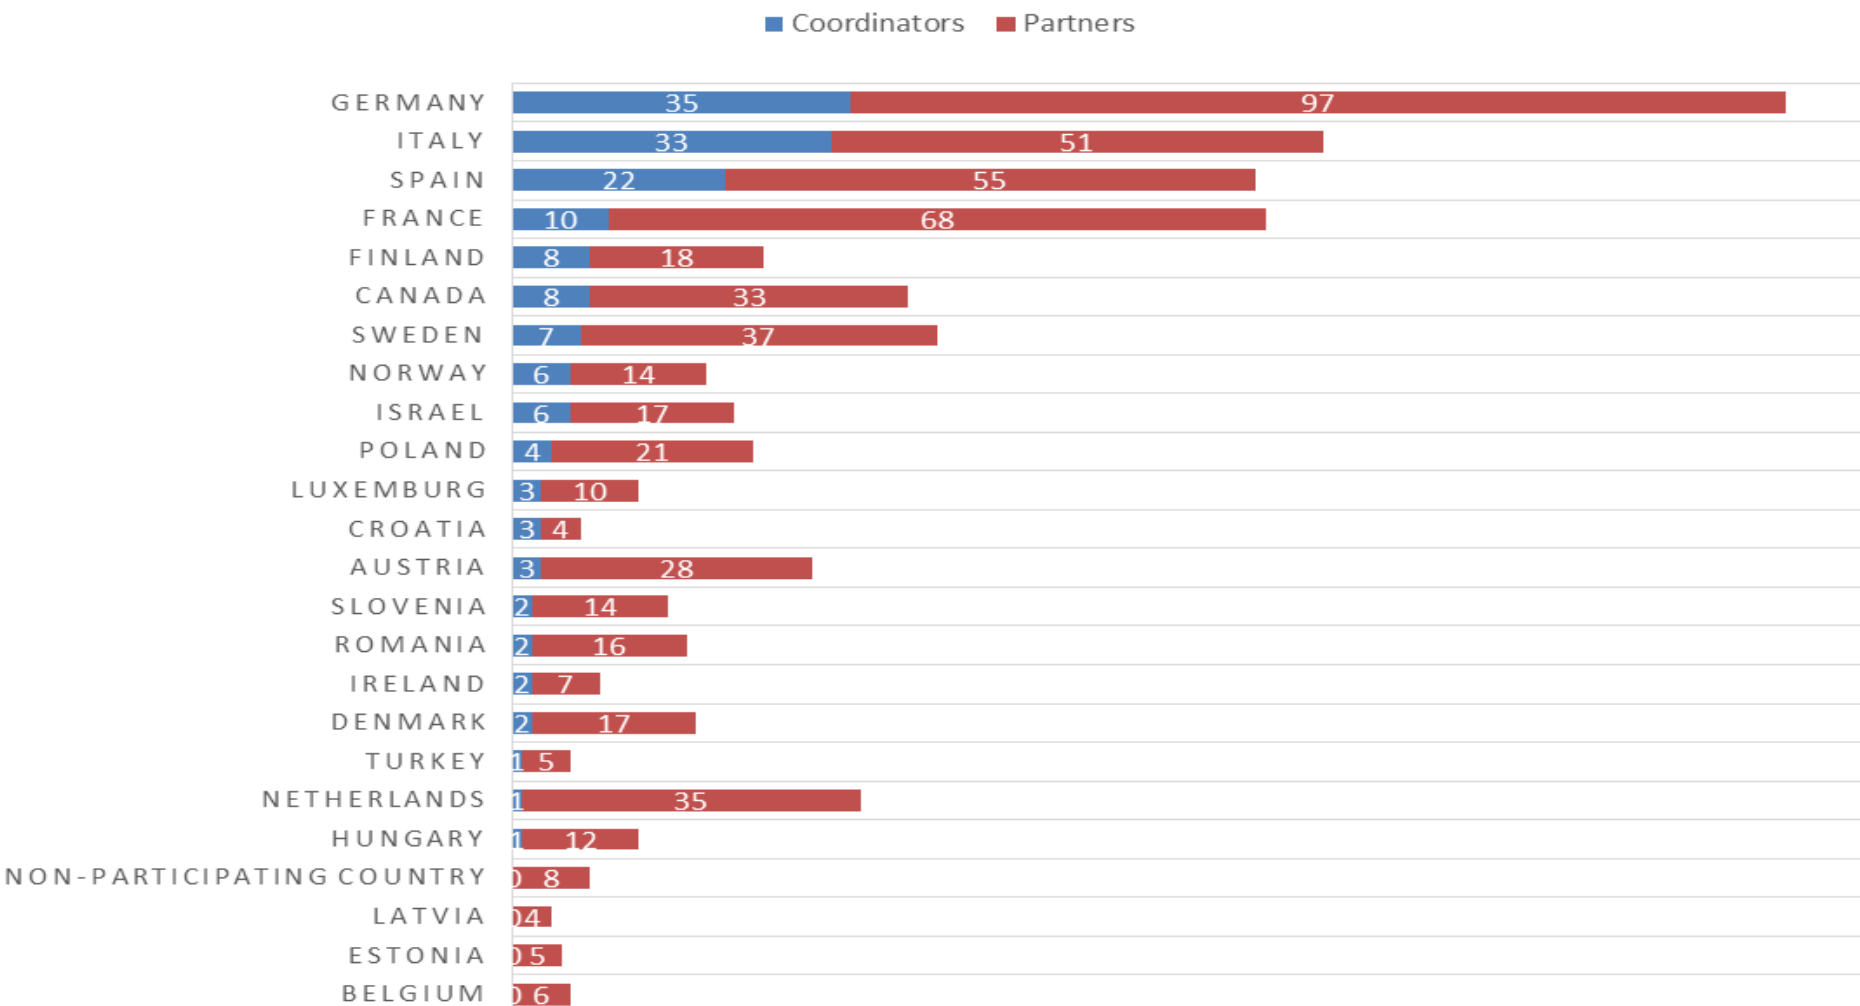

ERAPerMed – EU co-funded JTC 2018

Facts and Figures

- **Pre-proposal stage:**
 - 159/143 submitted projects
 - 741 partners requesting to 30 funding organisations
 - 176.21 M € requested funding
 - 50 Pre-proposals invited to submit a Full proposal
 - 75 evaluators from institutions affiliated to 24 countries
(25% females)
- **Full proposal stage:**
 - 50 submitted projects
 - 252 partners requesting to 27 funding organisations
 - 59.86 M € requested funding
 - 23 evaluators from institutions affiliated to 15 countries

Two step procedure

Timeline:

Launch: 9th January 2019

Submission deadline for Pre-proposals: 7th March 2019

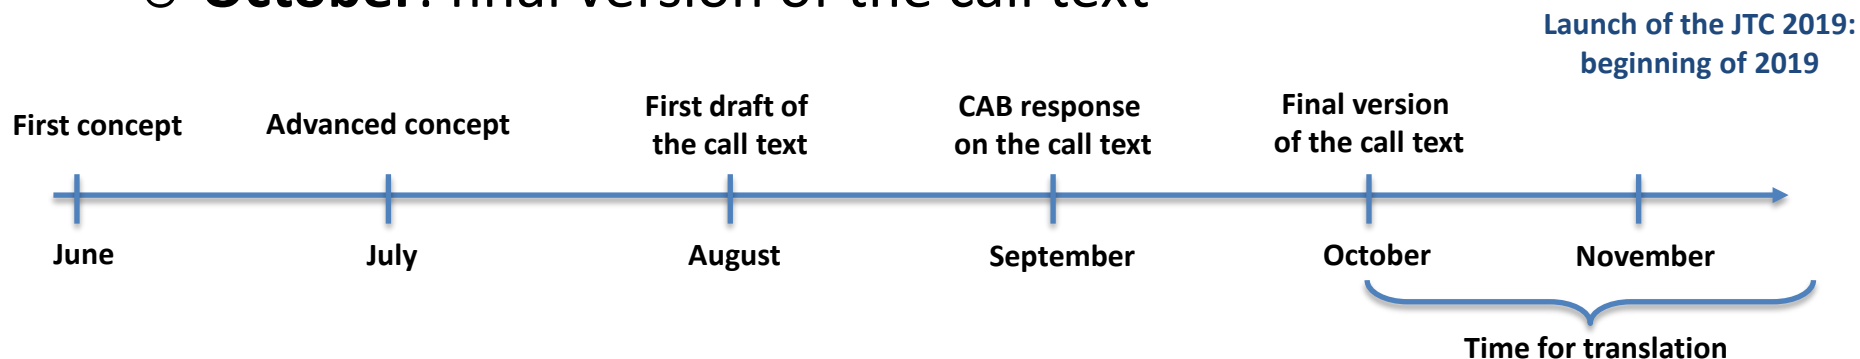

Submission deadline for invited Full-proposals: 17th June 2019

Expected start of granted projects: 2020 q1

ERAPerMed – non EU co-funded JTC 2019

Time plan for the development of the call topic

- In 2018:
 - **June:** first concept
 - **July:** Advanced concept based on discussions and decisions taken during the NSC meeting
 - **August:** First draft of the call text
 - **September:** Feedback of the CAB /feedback from JTC 2018 PRP upon the concept of 1st JTC
 - **October:** final version of the call text

ERAPerMed – non EU co-funded JTC 2019

Scope of the call

TOPIC: PERSONALIZED MEDICINE: MULTIDISCIPLINARY RESEARCH TOWARDS IMPLEMENTATION

- Comprises three Research Areas
- Each consortium submitting a proposal must address at least one module of Research Area 3 and at least one module of Research Area 1 or 2
- Proposals must be interdisciplinary and clearly demonstrate the potential impact in Personalized Medicine as well as the added value of transnational collaboration
